DESCRIPTION

Cable pulling sock with a single loop for pulling three cables simultaneously using the CW 800 E capstan winch. Made from flexible, robust, galvanised double-wire steel mesh for maximum stability and a long service life. The braided end of the cable pulling sock offers an enhanced safety standard.

The 3-way cable pulling sleeve series with a loop is ideally suited for use in combination with RUNPOTEC pulling cables and the CW 800 E capstan winch. For continuous pulling, RUNPOTEC recommends using the specially developed connecting swivel (item no. 10176) made from high-quality stainless steel.

High-quality materials and the robust design ensure reliable performance even under heavy loads. Total breaking load up to 4895 kg.

Not suitable for lifting loads – use exclusively for horizontal cable pulling

Scope of supply: 1 x Cable pulling grip 3-Way with single loop

ADVANTAGES

- Flexible double-layer galvanised steel wire mesh
- High-quality materials
- Long service life
- Ideal for the CW 800 E capstan winch
- Back-braided cable pulling sleeve end
- Extra-long mesh design

INFORMATION

Use with:
**Capstan winch
CW 800E**
Item no.10138

Pulling rope
Ø 10 mm and 12 mm
Length from 120 m to 350 m

Pulling rope on drum
Ø 10 mm and 12 mm
Length from 120 m to 350 m

Connection swirl with swivel
Item no.10176
